PROFESSIONAL SUMMARY

I'm a Full Stack Software Engineer with practical experience building modern web applications from the ground up. I enjoy working across both frontend and backend, creating systems that are not just functional, but also clean, intuitive, and efficient to use.

Through my projects, I've developed business websites, management systems, and full-stack applications aimed at solving real-world problems. I'm comfortable using modern tools, frameworks, and deployment platforms, and I'm always working to sharpen my skills.

I'm currently seeking opportunities where I can contribute meaningfully, grow as a developer, and be part of building impactful software solutions.

TECHNICAL SKILL

Frontend Development

- HTML5, CSS3, JavaScript (ES6+)
- React.js
- Responsive Web Design
- UI/UX Principles

Backend Development

- Node.js
- Express.js
- REST API Development
- Authentication & Authorization

Databases

- MongoDB

- MySQL
- PostgreSQL
- Database Design & Management

Tools & Technologies

- Git & GitHub
- VS Code
- Netlify & Render (Deployment)
- Replit
- Docker (Basic Knowledge)

Other Skills

- Full Stack Application Development
- Problem Solving & Debugging
- Basic Agile Workflow
- Version Control & Team Collaboration

PROJECTS

Personal Portfolio

🔗 https://elaborate-heliotrope-335f55.netlify.app/

- Built a personal portfolio to showcase my projects and skills
- Applied modern UI design and responsive layout techniques

PlanKraft Architectural Company Website (Frontend)

🔗 https://storied-baklava-9c279c.netlify.app/#

- Designed and developed a modern website for an architectural company
- Focused on clean design, responsiveness, and professional presentation

TECH.RICA Company Website

🔗 https://app.netlify.com/projects/jade-begonia-9a632a/overview

- Developed a corporate website to showcase services and company profile
- Structured content clearly to improve user experience

Ober Boys High School Website (Frontend Overview)

🔗 https://idyllic-naiad-c42658.netlify.app/#

- Built a school website interface for sharing information
- Improved navigation and accessibility for users

Velocity Car Ventures System

🔗 https://today-s-project.onrender.com/

- Developed a client-side application for managing car business operations
- Focused on usability and interactive features

Admin Dashboard Project

🔗 https://personal-project-admin.onrender.com

- Built a dashboard for managing system data
- Organized data with a clean and user-friendly interface

Finance Management System

🔗 https://finance-jtmt.onrender.com/

- Developed a full-stack application for tracking financial data
- Implemented features for data entry, monitoring, and reporting

Additional Projects

- Worked on multiple personal and group projects
- Gained experience solving real-world problems using full-stack development

EDUCATION

2024 – 2026
Bachelor of Science in Software Engineering

2024
Computer Packages – Roba Computer School (Distinction)

2020 – 2023
Olek Boys High School

2019
Kandiege Primary School

CERTIFICATIONS & ACHIEVEMENTS

- Participant – Computer Society of Kenya Hackathon
- Contributed to Florente Tech Company Website Development

REFEREES

- Kirinyaga University – 0709744000
- Ober Boys High School – 0729601016
- Roba Computer School – 0103667040
- Arch. Mwita – 0759303710
- David Gachohi, Lecturer (KyU) – 0708398130

PROFILE HIGHLIGHTS

- Full Stack Developer with a strong hands-on project portfolio
- Experience building and deploying live applications
- Passionate about creating practical, real-world software solutions
- Continuously learning and improving in modern technologies
